**RESPONSE TO REQUEST FOR INFORMATION
UNDER 37 C.F.R. § 1.105**

This is in response to the Request for Information dated July 22, 2008, in which the Examiner has required answers to the following interrogatories eliciting factual information.

(i) What is the source of *B. thuringiensis* strain ATX13026? Please supply all of the designations/denominations used for this strain.

(ii) At or before the time of filing of the instant application or any provisional application to which benefit is claimed, had said *B. thuringiensis* strain ATX13026 been disclosed or made publicly available? If so, under what designation/denomination and under what conditions were said strain disclosed or made publicly available and from when to when?

Applicants respectfully disagree. The claims of the instant invention encompass an isolated nucleic acid sequence, constructs comprising the nucleic acid, and transgenic host cells, plants, and seeds comprising the nucleic acid construct. The strain from which this nucleic acid sequence was derived is not being claimed, thus, this information is not material to patentability of the instant claims. Applicants respectfully request that the request for information under 37 CFR § 1.105 be withdrawn.
